EMPLOYMENT AND TRANSFER INFORMATION:

According to the U.S. Bureau of Labor Statistics, employment is expected to grow about as fast as the average for all occupations. News and commercial photographers are likely to face keen competition. Areas such as Internet publications, portrait photography, law enforcement and scientific and medical research photography should offer the best opportunities.

Students should be aware that each transfer institution has unique curricular requirements. To facilitate transfer, students should consult with an academic advisor early in their studies at HCC and before selecting elective courses.

Behavioral/Social Science and Arts/Humanities electives must be selected from two different disciplines to satisfy the General Education core requirements.
