

# PETER PAN

## PETER PAN

THEATERWORKS USA

Based on John Caird and Trevor Nunn's 1982 adaptation, the production was originally developed for London's Royal Shakespeare Company. In the spirit of the original tale, the story is told through the eyes of the six children living in Edwardian England. Together, they transform the Darling family's nursery into Neverland, turning long-johns into shadows, an ironing board into a ship's plank, and antique snowshoes into a crocodile's snapping jaws. This enchanting production celebrates childhood and captures the magic of the imagination.
