

DARLINGTON HALL

AT HARFORD COMMUNITY COLLEGE

NURSING & ALLIED HEALTH BUILDING

THE QUALITY OF
HEALTH CARE
EDUCATION

=

THE QUALITY OF
HEALTH CARE
PROVIDED

We all have a stake in the future of health care education. The quality of this education is directly related to the quality of medical treatment we will receive for serious injuries, illness, prevention, and our overall wellness.

Harford Community College offers outstanding, fully accredited health care education in a wide variety of majors in fields that will someday impact us all, including:

- EKG Technician
- Electronic Health Record Specialist
- Electroneurodiagnostic Technician
- Dental Assistant
- Histotechnology
- Medical Assistant
- Medical Office Assistant
- Medical Administrative Assistant
- Medical Billing and Coding
- Medical Transcriptionist
- Registered Nurse
- Practical Nursing
- Nursing Assistant
- Paramedic
- Physical Therapy Technology
- Patient Care Technology
- Pharmacy Technology
- Phlebotomy Technology

The State of Maryland will invest \$10.5 million and Harford County will invest \$7.4 million to construct, equip, and furnish Darlington Hall. Harford Community College is contributing land, human capital, equipment, and furnishings to positively impact the future quality of health care in our region. But with rapidly emerging medical technologies, methods, and procedures, HCC needs your investment to ensure health care education utilizing the most state-of-the-art resources.

HCC's Nursing Division has been recognized as a major grant recipient by the Maryland Higher Education Commission.

AN OUTSTANDING DESIGN FOR THE FUTURE OF HEALTH CARE

The architectural firm of Hord Coplan Macht has designed a three-story, state-of-the-art facility that will unite HCC's academic and continuing education health care programming in one building. Designed throughout with high-tech classrooms, laboratories, modeling and simulation labs, and informal study and social spaces, the new Darlington Hall will be prominently located on HCC's campus.

The design is a reflection of a new, more collaborative, team-based model of teaching in the health care fields. "For us it was a great opportunity to think about an educational building that had a different kind of logic and that takes advantage of both vertical and horizontal spaces and natural light," said the lead architect at Hord Coplan Macht. The design incorporates 2,200 square feet of highly flexible

space with multipurpose classrooms, several event areas, student lounges, cafés, and outdoor spaces — including a second-floor outdoor classroom and a terrace set on Harford's historic campus.

Construction began in 2013 and will continue for approximately one year. Through capital support from the state and county, Harford Community College has provided construction and design jobs in northeastern Maryland for more than a decade. This important capital project will continue to provide family-sustaining jobs for many residents of Harford County.

The building, which will be located between the Chesapeake Center and Edgewood Hall on Thomas Run Road, will be the central hub for students pursuing nursing and allied health degrees and certificates at Harford Community College, and

will also serve Upper Chesapeake Health through ongoing professional development coursework.

ARCHITECTURAL DESIGNS OF DARLINGTON HALL

HOW YOU CAN HELP

Even as Harford Community College builds this outstanding educational facility, new medical technologies are emerging and new and improved treatment procedures are being developed. Harford invites you to support top-quality health care education through a naming opportunity that will fund equipment and technology, programs, sustainability, or wherever the need is greatest.

Make a charitable donation for Darlington Hall through the Harford Community College Foundation, Inc. today and play a pivotal role in the quality of health care in Harford County for decades to come!

AREAS TO SUPPORT

EQUIPMENT & TECHNOLOGY

Digital technology in health care fields is revolutionizing patient care. By providing major new equipment and instrumentation and by upgrading equipment and furnishings, your support will ensure state-of-the-art educational resources at Harford.

PROGRAMS

As new technologies improve the health care system in the United States, the need for instructional resources, such as equipment and software to support instruction in Electronic Health Records, will grow. Contributions to Harford's Nursing and Allied Health programs will ensure students have state-of-the-art instructional resources on which to train.

WHERE THE NEED IS GREATEST

Your contributions will support the highest priority needs of Darlington Hall.

SUSTAINABILITY

HCC is a Maryland leader in wastewater management and rainwater capture as it stewards its land and resources. Contributions to sustainability initiatives will enable the College to reduce its impact on groundwater and runoff, as well as increase its use of solar power generation and sustainable cooling systems.
