

HARFORD COMMUNITY COLLEGE CERTIFICATION OF PSYCHOLOGICAL DISABILITY

The student named below has applied for services from Harford Community College's Disability and Student Intervention Services. In order to be able to determine eligibility and what, if any accommodations are warranted, documentation or additional documentation is needed.

Under the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973, individuals with disabilities are protected from discrimination and may be entitled to reasonable accommodations. To establish that an individual is covered under the law, documentation must indicate that a specific disability exists and that the identified disability limits one or more major life activities (e.g. learning). *A diagnosis of a disorder in and of itself does not automatically qualify an individual for accommodations.* The documentation must also support the request for accommodations and explain how the disability impacts learning.

Please complete the form and attach a comprehensive evaluation. Return by mail, email or fax to:

Additional symptoms: _____

SEVERITY: Please check to indicate.

- Mild Moderate Severe

DURATION: Please check to indicate.

- Chronic Episodic Short-term

STABILITY: Please check to indicate

- Stable Unstable

Please explain the severity, frequency, and pervasiveness of the condition(s) below. Clearly explain how the symptoms related to the student’s condition cause significant impairment in one or more major life activity, specifically addressing how the condition limits the student’s functioning in an educational setting for learning or test taking.

Please describe the stability and/or the expected progression of the disability, including expected changes over time and context. If the condition is not stable, please include information about situations that may exacerbate the condition, as well as interventions (including the student's own strategies) for exacerbation. A timeline for reevaluation would also be helpful.

CURRENT MEDICATION

Please provide information of current medications, including dosage and frequency:

Please explain what symptoms are alleviated by medication and what symptoms still exist:

Please list side effects from current medication:

How do these side effects affect the student in an educational setting (e.g. difficulty focusing, difficulty remembering, etc.):

What medication changes (including dosage changes) have there been in the last six months:

ACCOMMODATIONS

Please indicate your recommendations and justifications regarding classroom and/or testing accommodations in the college environment. Justifications should specify how the accommodations and strategies directly relate to the symptoms and/or functional limitations (e.g., extended time because of focusing difficulties).

Please note: At the college level, the purpose of an accommodation is to ensure equal access rather than to ensure a student’s success. In reviewing the accommodations requested by the student or recommended by an evaluator, the DSIS Office may find that the accommodation is not appropriate given the requirements of a course or program. DSIS may propose an alternative accommodation that would be appropriate for the student, but which neither the student nor evaluator has requested.
